The screenshot shows a terminal window with a dark background. At the top, there are tabs labeled 'TERMINAL', 'PROBLEMS', '13', 'OUTPUT', and 'DEBUG CONSOLE'. The 'PROBLEMS' tab is active, showing an error message: 'ERROR StatusLogger Reconfiguration failed: No'. Below the error message, there is a table with two columns: 'body' and 'parent'. The table is enclosed in a box with dashed lines. The data rows are as follows:

body	parent

At the bottom of the terminal window, the prompt 'D:\School\Semantic Web\Midterm>' is visible.
